

Dear Mums, Dads and Carers,

Welcome to Year 1! We are looking forward to a fun and creative first term with your children – we are very excited to get started. We would like to invite you to meet the Year 1 team this Friday 11th September at 8:45am in 1G's classroom. There will be a creche for the children in the Middle Hall.

This term we have two topics, which will be used as a focus for much of our work across the curriculum. The topics are 'Who Are We?' in the first half term and 'Toys' in the second half of the term. We have also attached the Topic Plan with more curriculum information.

The Year 1 Staffing Team

1D's class teacher is Daniel Norbert, supported by Sandra Hall

1G's class teacher is Georgia Duke, supported by Ebony Thomas

Teachers planning time (PPA) will be covered by Andrea Littlewood and Natalie Ketchell

Parent times:

Both class teachers are available after school (**3:45pm – 4.15pm**) on **Mondays** if you have anything you need to discuss. To arrange to speak with us by telephone during this timeslot, please contact the office by email.

PACT Bags and Show and Tell

We will continue to send a reading bag home with a PACT book. We will let you know which day is your child's reading day. Every week we will share a book with your child. They will bring the book home that we have shared and also another book of their choice (for shared reading). There is also an opportunity for you to write any comments in the PACT book. Please make sure that your child brings in their PACT bag on their reading day every week. Every Friday we will be setting the children an e-book that reflects the phonics that we have been learning that week. In order to access this, you will need to use a login that will be attached to your reading record book inside the PACT bag.

Show and Tell will take place every Friday and we will be sending a timetable out shortly. We encourage children to bring in something from home to talk about in front of the class. Please make sure that they do not bring in anything too precious or that could potentially hurt another child.

Water bottles and packed lunches:

Children should continue to bring in a water bottle, clearly labelled with their name. Those children who are bringing a packed lunch should bring this in a small container, ideally a lunch box, as these will be stored within the classroom. Please also ensure your child is able to open the box and any food packages and containers, particularly flasks. We are a healthy eating school, so lunches should be nutritious and balanced, with no junk food items. Nuts and foods containing nuts are strictly prohibited.

Medicines

If your child requires an inhaler, EpiPen, or any other regular medication, please could you ensure the school has two of each medication from day one as we will require one for the classroom and one for the school medical room.

PE and clothing:

As we want to keep the classrooms well ventilated, we will be making sure that some windows will be open in the classroom, so please make sure that children are wearing enough layers to keep them comfortable whilst working.

Please make sure that your children are wearing clothing and appropriate footwear that will enable them to be active, as we will be doing 'The Daily Mile' a number of times a week as well as PE lessons on **Tuesdays and Fridays (1D) and Fridays (1G)**.

Class assemblies:

Each class will hold an assembly this term at 9.20am on the dates below:

1G – Wednesday 9th December

1D – Thursday 10th December

We look forward to an exciting term with the children!

Best wishes,

Georgia and Daniel

Topic: Who Are We? / Toys	Term: Autumn 2026	Class: 1D/ 1G
----------------------------------	--------------------------	----------------------

English - Phonics work & spelling - To develop reading skills - To read a variety of texts including traditional stories, poetry, and non-fiction. - Grammar & punctuation (finger spaces, sentence writing, capital letters and full stops). - Writing a range of non-fiction and fiction pieces - Retelling and sequencing familiar tales	Mathematics - Place value - Securing number facts - Counting to and beyond 20 - Counting forwards and backwards - Addition and subtraction - Understanding shape - Reading and writing numerals and numbers in words.
